

Holiday Inn[®] OF JOLIET-WEST

ROUTES 66 & 52
JOLIET, ILLINOIS 60435

As owner and operator of five Holiday Inns, I wish to convey my recommendations and endorsement on behalf of your Humicon Units.

I am aware of the problems that exist in coolers and I have found in my coolers that the odors were controlled, the shelf life of the food was dramatically increased, the excess moisture eliminated and the running time of my compressors has been reduced.

Our seating capacity is in excess of 450 people. Last Sunday, Mothers Day, we served an excess of 1200 meals. We found the Units helped maintain that high standard of quality in our food which is of most importance to our food operation.

I highly recommend your product to any cost conscious service minded food service operation.

Sincerely,

Gene Bogdan
