Dear James,

RE: PRO-LONG OF VEGETABLE SHELVES-LIVE

Many thanks for approaching us with a **FREE TRIAL** for a month using the '*Humitech humidity control system filters*' in our chillers.

As an organic vegetables retailer, we are very concerned with the quality and the freshness of our supplies to our customer.

To my amaze, our vegetables and fruits shelf-live have increased. Our losses have reduced since then.

We are glad to recommend this product to all the chiller and fridge users.

Sincerely,
Yu Kim Beng.
