3 March 2006

To: Humitech Singapore Pte Ltd

TO WHOM IT MAY CONCERN

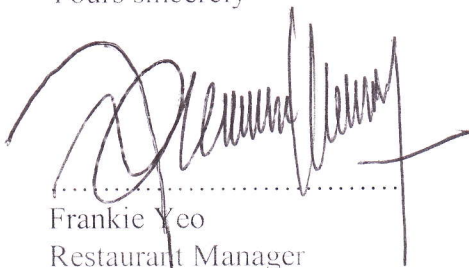

Mr. James Chan approached us for a trial run of the humidity control system of our walk-in chillers, and we were initially skeptical of Mr. Chan's claims of his product being able to affect the freshness of our chilled products. He suggested a trial run, and we obliged since he offered it free-of-charge.

At the same time, I was given another sample for domestic usage. Two weeks later into the trial, my domestic helper had some local vegetables left in the fridge for more than two weeks, and it was still green and crisp! This was what convinced me that this product will help maintain freshness of our restaurant chilled products.

We have just replaced the trial panels with new ones, and have indeed seen marked increase in shelf-life of products, and decrease in wastage of chilled products since we started using this Humitech product.

Indeed, "seeing is believing." I am glad James recommended this product to our restaurant.

Yours sincerely
